

## ***Galaxy Door Restrictor - Fitting Instructions***

- 1) **Position the aluminium channel into the groove at the top of the door, and position 105mm from the edge of the door. This is 105mm for the hinge side. Place the nylon stoppers, at each end of the channel, and fix through these into the door.**
- 2) **Open the door to your desired position.**
- 3) **Slide the arm back down the channel, towards the hinges on the door, until it hits the stopper.**
- 4) **Move the arm, until the bracket and the frame of the door meet.**
- 5) **Fix the bracket into position.**
- 6) **Close the door, and installation should be complete.**
